SUMMARY

Salesforce Certified Agentforce Specialist with skills in C++, Python, SQL, and Machine Learning fundamentals. Enthusiastic about building AI-powered and data-driven applications to improve user experience, automation, and software efficiency. Hands-on experience in AI/LLM evaluation, problem-solving, and intelligent system development through academic and personal projects. Quick learner, adaptable, and capable of working effectively in fast-paced environments.

EDUCATION

Pranveer Singh Institute of Technology , (AKTU)

Kanpur, India

Bachelor of Technology (B.Tech), Information Technology, CGPA 8.57

2022 - 2026

EXPERIENCE

Post-LLM Training Intern – Ethara AI (Remote)

Apr 2026 – May 2026

- Worked on LLM evaluation workflows to improve AI-generated response quality and consistency.
- Performed prompt-based validation and data-focused evaluation tasks for Large Language Models.

Artificial Intelligence Intern – TheSmartBridge (Virtual)

Feb 2026 – April 2026

- Completed a certified AI Virtual Internship under SmartBridge and Google for Developers.
- Worked on Machine Learning concepts, model evaluation, and real-world AI problem solving.
- Contributed to Project ZenFlow focused on AI-driven workflow automation.

TECHNICAL SKILLS

Programming Languages: Python, C++, SQL

Core Concepts: Object-Oriented Programming, Data Structures & Algorithms, DBMS

AI & ML: Machine Learning, NLP, Data Annotation, Data Labeling, AI Model Evaluation

Libraries and Frameworks: NumPy, Pandas, Matplotlib, scikit-learn, FastAPI

Databases: MySQL, PostgreSQL

Tools and Platforms: Jupyter Notebook, Google Colab, Git, GitHub, VS Code, MS Excel, Google Sheets

PROJECTS

ZenFlow Yoga – AI-Powered Wellness Assistant

April 2026

Tech Stack: Python, Streamlit, NLP, LLM

- Developed an AI-powered wellness assistant that generates personalized yoga and wellness recommendations based on user preferences and goals.
- Integrated NLP and LLM-based conversational workflows to enable interactive and human-like user assistance.
- Built an interactive Streamlit interface for real-time wellness guidance and seamless user experience.

Lumiface-Face Recognition Attendance System

March 2025

Tech Stack: Python, OpenCV, Tkinter, MySQL, HaarCascade, LBPH

- Developed a face recognition-based attendance system achieving approximately 95% accuracy.
- Built a Tkinter GUI integrated with MySQL database for secure attendance storage.
- Automated dataset training and attendance logging; system published as a patented framework.

ACHIEVEMENTS

- Patent Published(Face Recognition Attendance System)-Application No.: 202511051742 A (2025)
- Solved 400+ questions on Coding Platforms.
- Hackathon—TECH-EXPO Winner
- International Collegiate Programming Contest(ICPC)—Participation
- Earned AgentBlazer Champion Badge, AgentForce Specialist Badge

CERTIFICATIONS

- Salesforce Certifications—AgentForce Specialist
- Infosys SpringBoard Certifications—HTML,CSS,JavaScript,Python,DBMS
- Coursera(META)—Frontend Development
- Internshala—Web Development
